Navy Morale, Welfare and Recreation (MWR) is committed to operating its facilities and conducting its activities in a safe manner and holds the safety of its patrons and their guests of paramount importance. Navy MWR continually strives to reduce the risks associated with its operations and insists its patrons are aware of and follow all safety rules and instructions designed to protect them.

General. I confirm that I am an eligible MWR patron over 18 years of age, and if under 18 years of age, an authorized MWR patron participating in an MWR event/activity or utilizing MWR facilities or equipment (hereafter “MWR event/activity”) described below with express consent of my parents or other legal guardian(s). I also acknowledge that I have voluntarily chosen to participate in this Navy MWR event/activity, and that the event/activity in which I am participating has certain risks, inherent and otherwise, that cannot be completely eliminated, and these risks can cause loss, damage and destruction to equipment and personal property, accidental injury and illness, and in extreme cases, permanent trauma, disability or death.

Warning of Risk. Despite proper maintenance and preparation of facilities and equipment, instruction, medical advice, experience and conditioning, there are inherent risks of loss, damage and destruction of personal property, and accidental injury, illness, and in extreme cases, permanent trauma, disability or death when participating as a jumper/plunger, skier, passenger, bystander or spectator in close proximity of individuals engaged in a polar bear plunge, snow skiing, snowboarding, snowshoeing, tubing, sledding and other winter sport and recreational activities. Many risks associated with these activities are inherent to participation in or being in close proximity to those participating in these winter sport and recreational activities. And while not all hazards and dangers can be foreseen, I understand that there exist certain risks and dangers, and the possibility of injuries, illness, disability and death, brought about by my presence or participation, by collisions and actions to avoid collisions with other plungers, skiers, passengers, spectators and obstacles; variations in terrain; surface or subsurface snow or ice conditions; bare spots, rocks, trees, stumps, and other forms of forest growth or debris; lift towers or other forms of towers and their components, either above or below the snow surface; any other objects and structures, including, but not limited to, objects/debris in the water, to include those under the surface and along the lake bottom, as well as those visible to include the dock/gangway infrastructure, posts, tents, heaters, bonfires, fencing and event signage, utility poles, fences, posts, ski equipment, slalom poles, ropes, out-of-bounds barriers and their supports, signs, ski racks, walls, buildings and sheds, and plainly marked or otherwise visible snowmaking and snow-grooming equipment, snowmobiles, snow cats, and over-snow vehicles; and changing/degrading weather conditions. I also understand and acknowledge that there may be “free” time when I may not be actively participating as a jumper/plunger, skier or passenger in the above described activities for which I am intending to participate, including pre-event stretching, warm-up activities, and equipment and surface familiarization activities, yet potential hazards may nevertheless be present. I recognize that Navy MWR cannot guarantee my absolute safety should I participate in this MWR-led event/activity.

MWR Event/Activity. I understand and acknowledge the physical and mental rigors associated with the above described winter sports and recreational activities, and realize that these physical activities and other portions of these activities can
